# Idaho State Police

### Service Since 1939

**Colonel Kedrick Wills**
**Director**

**C.L. "Butch" Otter**
**Governor**

## IT Systems Integration Analyst, Sr.
### Meridian, Idaho

**To be hired, you must pass an extensive background investigation which will include credit, work, criminal history, reference checks, FBI fingerprint clearance, and a polygraph exam.**

*This is a senior level position. At this level, incumbents are recognized as experts in systems integration. In a leadership role, incumbents apply their knowledge creatively and use their technical expertise to research and create new and innovative ideas for solving the most complex system-related problems.*

**This position will start between $27.30 and $33.37 per hour.**

**RESPONSIBILITIES:**
- **Provides leadership in the design, development, implementation, support, and operation of complex integrated systems solutions**
- **Oversees and conducts cost/benefit and feasibility analysis to provide recommendations on alternative approaches to the IT needs of the enterprise**
- **Collaborates on the design and installation of new or enhanced server systems**
- **Collaborates on the design and development, testing, and implementation of new technologies**
- **Oversees and performs capacity analysis and planning**
- **Works with enterprise management, other IT staff, and end-user clients to define system requirement for potential uses of information technologies**
- **Researches available tools and technologies to determine alternative technology solutions**
- **Collaborates on research, implementation, and support of multiple computing platforms, operating systems, and processing environments**
- **Develops and conducts IT training**

**MINIMUM QUALIFICATIONS: (NOTE: Experience must be within the last six years)**
- **Experience researching, designing and installing a new or enhanced complex integrated system which included multiple technologies and platforms and the resolution of conflicting goals**
- **Experience installing, maintaining, troubleshooting, and resolving complex multi-architecture and applications software problems**
- **Experience and knowledge of server operating systems management (Windows & Linux)**
- **Experience managing Storage Area Networks**
- **Experience managing Windows Active Directory/Group Policy**
- **Experience managing Microsoft Exchange Server (to include 2010, 2012, 2016 and Office 365)**

**DESIRED QUALIFICATIONS: (NOTE: Experience must be within the last six years)**
- **Database Management/Maintenance Experience (to include SQL/Oracle)**
- **Experience managing/administering web servers (Apache HTTP/IIS)**
- **Experience managing/administering VM-Ware &vSphere infrastructure**
- **Experience managing Mobile Device Management Systems ( i.e. Air Watch)**
