

HEP/CAMP PRESENTS:

SHOWCASE 2016

HEP/CAMP (High School Equivalency Program and College Assistance Migrant Program) will be hosting their annual student showcase to introduce students to employers, community organizations, and various programs (on and off campus).

This is an excellent opportunity to look for students to fill possible summer and ongoing employment in your company or organization. We invite you to show your support even if you have no jobs currently available.

This will also be a great time to share information about internship or volunteer opportunities.

Please call for details if you would like a display for your company or organization; space is limited.

Parking will be available!

Boise State University
